*Many years ago,*  
Mahfuj Munshi set foot in the  
Serengeti for *the first time*

Enchanted by the brilliant land he had stumbled upon and the delightful nature of the people who inhabited it, our founder would return to Tanzania again and again.

Much like the wildebeest making their annual pilgrimage through the breathtaking reserves of this exquisite part of the world, he could not stay away.

Founded by Mahfuj Munshi, The Singing Grass is a long-term project built with a simple goal in mind — to be a true embodiment of passion and respect for nature.
